## SUMMARY

A versatile Software Engineer and Computer Science graduate with hands-on experience in building scalable web applications using the MERN stack and Next.js. Passionate about leveraging modern technologies and AI-driven problem-solving to deliver innovative products and optimize workflows. Eager to contribute to a dynamic team and grow technical skills in a collaborative environment.

## PROFESSIONAL EXPERIENCE

**IT Support Trainee** | Rural Electrification & Renewable Energy Corporation (REREC) *May 2024 – Aug 2024*

- ❖ Provided SAP/4HANA support and onboarding for enterprise users, enhancing system adoption and troubleshooting technical issues.
- ❖ Managed the Jira ticketing system for tracking hardware maintenance and IT tasks, improving task resolution efficiency.
- ❖ Monitored and maintained devices in server rooms to ensure 99% uptime and troubleshoot network issues to maintain stability.

## PROJECTS

**TaskFlow** | [TaskFlow Repository](#) | [Try TaskFlow](#)

- ❖ Developed TaskFlow, a full-stack task management application utilizing Next.js 14 and Node.js with TypeScript.
- ❖ Implemented features include an intuitive dashboard, real-time collaboration, secure JWT authentication, and drag-and-drop Kanban boards.
- ❖ Engineered for efficiency and responsiveness, ensuring seamless project organization and tracking across devices.

**Fitness Tracker** | [Fitness Tracker Repository](#) | [Try Fitness Tracker](#)

- ❖ Developed a cross-platform web app using the MERN stack to help users track their daily health routines.
- ❖ Implemented features for personalized recommendations based on user activity and leveraged AI-assisted coding for rapid development.
- ❖ Built with React, Node.js, Express, and MongoDB, featuring charts for activity tracking and visualization.

## EDUCATION

**Bachelor of Science in Computer Science** | Chuka University

- ❖ **Relevant Coursework:** Software Engineering, User Interface Design, Distributed Systems, Decision Support Systems, Component Based Architecture, Software Project Management, Artificial Intelligence, Data Structures.

## TECHNICAL SKILLS

- ❖ **Frontend:** Next.js (App Router), TypeScript, React 18, Tailwind CSS, Zustand, TanStack Query, HTML5, CSS3, JavaScript (ES6+), ShadcnUI.
- ❖ **Backend & Databases:** Node.js, Express.js, Next.js API Routes, MongoDB, Mongoose, RESTful APIs, JWT, Redis, Python Fast Api, PostgreSQL, BetterAuth.
